*Memories that last a lifetime...
 These days the average wedding can cost \$10,000 to \$40,000 or more. So often brides say that they put so much time and effort into planning their wedding and the day goes by so quickly, that they wish they could remember more of it. A wedding day can be a stressful one, with so much to organize and to do. Often couples can't fully enjoy the excitement of the day as it actually happens. The wedding videos we create help our clients re-live this exciting, wonderful day with none of the stress. At Video Pro Productions we offer several wedding videography packages to fit the needs of our clients.*

Our Assurances:

- Our staff will arrive prior to the event to set-up and begin filming preparations
- Our staff will work with the DJ and Wedding Planner (if applicable) to assure the day's important moments are captured perfectly.
- Our staff will dress appropriately for the event and will do their best to be as inconspicuous as possible
- Our staff uses professional High-Definition 3-CCD AVCHD video cameras for the best possible picture quality
- Our staff will assure great audio quality by utilizing high quality microphones and, if possible, tying in to existing sound/DJ systems (if applicable)
- Our staff will provide masterfully edited videos that will preserve the wedding day memories forever.
